TRICOT
SELECTION

Dear Reader,

TRICOT SELECTION has the pleasure to bring out this special publication «MAGIC CROCHET» for all Crochet Lovers.

We are sure that our beautiful patterns will tempt you to try their execution. Our drawings will help you to get on quickly and to come to an excellent result.

At the end of this magazine, you will find the way of interpreting the signs used in the realisation of our drawings and some data regarding the basic stitches employed in this book. We would like to point out that the bold-faced type figures appearing on each drawing correspond to the number of the row and that the faint ones give the number of chain stitches to make in a loop.

If you should have any difficulty during work, please write and we shall do all we can in order to satisfy you.

MAGIC CROCHET

vocabulary

Method of execution

of our patterns from technical drawings.

At the end of this magazine, you will find the guide for the signs used in our drawings and some information about the basic stitches used in this book. We would like to point out that the bold-faced type figures appearing on each drawing correspond to the number of the row and that the faint ones give the number of chain stitches to make in a loop.

Chain stitch (ch)

Half double crochet (hdc)

2 chain stitches make one half double crochet.

Single crochet (sc)

Insert hook from the front to the back into the second chain from the hook. Wrap the yarn around the hook and draw it through the stitch, wrap the yarn over the hook again and draw the yarn (new loop) through both loops on the hook.

Double crochet (dc)

3 chain stitches make one double crochet.

Slip stitch (ss)

Insert the hook into one stitch. Catch the yarn and draw a loop through the chain stitch and the loop on the hook.

This stitch is used to join chain stitches into a ring, to join motifs, to fasten edges etc.

Triple crochet (tr)

4 chain stitches make one triple crochet.

2 dc clusters

Double triple crochet (dbl. tr)

5 chain stitches make one double triple crochet.

3 dc clusters

Puff stitch

Puff of 3 hdc.

Popcorn stitch

Picot

Extra chain stitches alone make a small picot. Chain stitches drawn together at their starting points with a slip stitch or a single crochet for ring picot.

To begin

Make a chain and join into ring.

To begin

Make a loop with end of yarn.

To begin

Make double loops with end of yarn.

Front raised dc

Hook through front of stitch of previous row and half double crochet. Proceed in the same manner for half double crochet or single crochet.

To finish

How to assemble a crochet work with material

1 — Setting material on work

Make piece of work according to size of material. Fold the edge of the material and place piece of work under material with overlapping of material of 3/4 inches. Baste and sew with sewing machine. Use slip stitches to sew edge of work to material.

2 — Setting piece of work on material

As in n. 1, make work according to size of material. Fold edge of material twice or three times and sew with slip stitches. Place work over this hem. Turn over and sew edge of material on work.

3 — Bringing together both edges and assembling

As in n. 1, make piece of work according to size of material. Fold edge of material twice and sew. Place edges and material together and assemble them with ladder style open-work.

To change colors

1 — To work in stripes of different colours

Before pulling the last loop of the 1st row, change to a yarn of different color and proceed as in 1. Make a chain to start a new row changing the direction (2). Tie the ends of both yarns together and blend them onto wrong side of the work. Or leave them aside until the next row is started. Then you pull them up and knit them together with the new stitch.

2 — To attach a new thread

Insert the hook, pull yarn and work one chain. Pass the thread as indicated by the arrow. Then work the next chain.

3 — To change colors in the course of the work

On pulling the last loop, take the new thread. Tie the ends of the yarns together and blend them onto wrong side of work.

Joining after motifs are completed

1 — Joining with overcast stitches

Complete all the motifs and assemble them together with a needle in overcast stitches. This method can be used with straight-lined edged motifs in the shape of triangles or squares. Place motifs on top of each other, right side of work up, and join them in overcast stitches.

2 — Joining with slip stitches

This is also for motifs with sc or dc edges. Place motifs with wrong sides up and work ss taking external part of stitches.

To join motifs while working

1 — Joining with slip stitches

Complete the first motif. On working the last round of the second motif, join to the first with slip stitches.

2 — First remove hook and work in slip stitches. This method can be used to join chain picots. Complete the first motif and on joining at the last round of the second, remove momentarily the hook from the motif, insert it into first motif, pick up the stitch which had been left aside and work in slip stitches to join both motifs together.

3 — Joining with single crochet

Proceed as in 1, but work with single crochet instead of slip stitches.

4 — Joining inserting the hook

This method can be used for a motif with a double crocheted and/or a single crocheted edge. Complete the first motif. Work the last round of the second motif inserting the hook in the head of the double crochet stitch of the single crochet stitch of the last round of the first motif.

To make a new row with arc stitches

1 — With slip stitches. Work in slip stitches to the center of the arc and start a new row.

2 — Replacing the last arc of chain stitches with chain stitches and one double crochet (or one half double crochet or one triple crochet). Work half of the last arc (1 less chain with an odd number) and replace the remaining half with 1 double crochet (or 1 half double crochet or 1 triple crochet).

Basic stitches for net crochet

Work net crochet always referring to the drawing (chart). Each drawing indicates the number of stitches and of spaces. There are spaces of double crochet and of triple crochet basis. Calculate the number of stitches for the foundation chain as minimum number of chain stitches required to make a space \times number of spaces + 1 (for extreme end). Add to this number a starting stitch for the first space.
